History and Description of the Remains

At an unknown date, human remains representing, at minimum, one individual were removed from an unidentified site near Frederic, Polk County, WI. Although the human remains were recorded in a 1968 inventory sheet of the skeletal collections in the Physical Anthropology Lab at UW-Madison as belonging to a group of miscellaneous, poorly documented loans from the Wisconsin Historical Society, the Wisconsin Historical Society disputes this notion. Based on the catalog number associated with these human remains, the human remains were donated to the Wisconsin Historical Society in 1921, by F.O. Hendricks. How these human remains came to be curated in the University of Wisconsin-Madison Department of Anthropology is unknown. The fragmentary remains belong to an adult, possibly female. No known individual was identified. No associated funerary objects are present.
